Cream Polisher

Solutions you can count on!

DESCRIPTION

Mr McKenic® - Cream Polisher is a uniquely formulated product which effectively cleans and polishes different surface types such as stainless steel, metal, aluminum, and tiles.

Mr McKenic® - Cream Polisher is non-fuming and non-corrosive, hence it is safe to use on most sensitive surfaces and will not cause discoloration of exterior walls.

APPLICATIONS

Mr McKenic® - Cream Polisher is widely used on the following areas:

1. Removal of rust, scale and oxidation from stainless steel and aluminum surfaces
2. Removal of stubborn stains on grouting and tiles
3. Cleaning of exterior aluminum cladding on high rise building
4. Removal of burnt marks from oven, grills, stove, pots and pans
5. Removal of water marks found on glass, mirror and plastic surfaces
6. Polishing of stainless steel

DIRECTIONS

1. This product can be applied directly on most surfaces
2. Test on small area before application
3. Add a small amount of water
4. Rub gently and wipe off with a damp cloth or sponge.
5. For rough surfaces, agitate using a soft pad or wire brush.
6. For large surfaces, use a rotating mechanical scrubber.
7. Rinse thoroughly with water.
8. Dry with clean cloth or mop

Note:

Rub along the surface grain when using on stainless steel.
For sensitive surfaces, do not apply directly. Always test on a small area.

HANDLING PRECAUTIONS

1. For professional use only. To be used in a well-ventilated environment.
2. In case of contact with eyes, rinse thoroughly with water and seek medical advice.

3. If swallowed, take plenty of water and seek medical advice immediately.
4. Avoid prolonged contact with skin.
5. Put on gloves for sensitive skin.
6. Keep out of reach of children.
7. Additional information may be obtained from Material Safety Data Sheet (MSDS)
